NOTES

PIPE ONLY SYSTEMS

Pipe Only systems do NOT come with a Hot Dog, Small or Large Muffler. These components are available separately, & can be ordered with the system or afterwards if a customer finds their system too loud. Each pipe only system has a section of pipe that can be unbolted & a Hot Dog, Small or Large Muffler bolted in its place. Pipe only systems will NOT comply with current sound level & emissions legislation & should be sold as an "Off Road" application only.

HOT DOGS / SMALL & LARGE MUFFLERS

Our Hot Dogs, Small & Large Mufflers are of a straight through design to give maximum flow. A Hot Dog / Small Muffler will give a mid-tone note, whereas a Large Muffler will be quiet, similar to standard (ideal if towing).

CATALYTIC CONVERTER SYSTEMS

All our Catalytic Converter systems are fitted with a premium quality diesel specific metal 200 cell high flow catalytic converter. Our High Flow Catalytic Converters give greater performance than standard factory 400 Cell Catalytic Converter.

WARRANTY

All Redback 4x4 Exhaust Systems carry a 3 year warranty.

For further details please contact our Customer Service on 1300 414 164.
